

11:45 - 12:30

Panel: Implementation of the RBT Guidelines

**Integrating the CLARIN Infrastructure
into the student projects**

Novella Tedesco

Alma Mater Studiorum - University of Bologna

THE PROJECTS

1

“Speaking of consequences: good, bad, neutral?”:
using CLARIN resources for a corpus-based cross-linguistic analysis on near synonyms evaluative prosody

2

“Designing, compiling and archiving a corpus of bank bulletins”:
creating new language data resources to enlarge CLARIN repositories

MAIN CHARACTERISTICS OF THE PROJECTS:

- **Research-based** learning
- Use of the **CLARIN** research infrastructure
- Actualization of the **UpSkills guidelines** for students projects
- **Suitability** to different teaching settings
