LaRS
Language Repository of Switzerland

The Language Repository of Switzerland (LaRS) is a national platform for the publication of linguistic research data, resulting from a cooperation initiative of the University of Zurich.

LaRS IS SUPPORTED BY:

01
LiRI, University of Zurich

LiRI is a technology platform of the University of Zurich and offers various services in the area of data generation, processing and annotation. LiRI also supports data-intensive projects with linguistic expertise.

02
University Library Zurich and Zurich Central Library (ZB)

The Open Science Services department of the University Library Zurich coordinates activities such as data curation and requirements management for LaRS. Various departments of the University Library as well as the Zurich Central Library support LaRS in data curation for linguistics.

03
CLARIN-CH

CLARIN-CH is the Swiss node of CLARIN - the pan-European research infrastructure for language resources.

SWISS Ubase

On a mission to help researchers preserve and share their data

Why choose SWISSUbase?
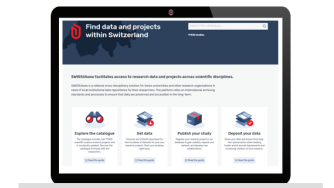

▼ A flexible archiving platform for data and metadata, tailored to discipline-specific needs.

▼ Data curation, personal support & consultation services by archiving experts, based on over 20 years of experience.

▼ For long-term preservation, access and re-use of high-quality Swiss research data.

NEWS

We are happy to announce that SWISSUbase is now launched as **the national data service for the social sciences & linguistics communities!**

YOUR BENEFITS AS

INSTITUTIONS — 01

Get A Trusted Archiving Service At A Fraction Of The Cost

Join the SWISSUbase association to actively collaborate in building a national archiving service to ensure long-term preservation and access of research data, in line with your Institution's needs, at a fraction of the cost.

RESEARCH COMMUNITIES — 02

Connect To Disciplinary Research Data Infrastructures Worldwide

SWISSUbase's rich, flexible and extensible metadata models based on disciplinary standards allows for the interconnectivity of Swiss research communities on the national and international level.

DATA PRODUCERS — 03

Deposit & Share Your Data For Free

Deposit your data in our FAIR archive to meet funders' requirements, to increase the visibility and long-term access of your data. You will obtain a DOI, control of access to the data, and your data archived by experts to ensure long-term accessibility.

DATA CONSUMERS — 04

Find Quality-Controlled & Re-Usable Data Easily

A free service for users, find and access a wide variety of quality-assured and well-documented data in the SWISSUbase catalogue that are ready for instant reuse.
