

CLARIN-DSpace

2024 State of the Union

Agenda

Why still not ready

1. University processes
2. DataQuest learning
3. DSpace 7.2 had many problems, 7.5 OK-ish...

When:

September: LINDAT on v7 in testing / production

Knowledge:

github.com/ufal/clarin-dspace (wiki, issues)

UFAL still at the helm – Ondřej Košarko

Development

UFAL team strengtning (NRP)

UK (institutional repo): +1 new repository admin

All centres still welcome to develop

(please do!)

DataQuest used by UFAL for flexibility

primarily working for UFAL on NRP project

strenghtening C-D as general data repository

an extra option not existing before

development still completely open, MIT license
